DATE DISTR. 6 October 1953

SUBJECT Planned Academy Institute for Crystal Structure Analysis

NO. OF PAGES 1

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO
REPORT NO.

25X1A

25X1X

1. The Department for Crystal Structure Analysis of the Academy Institute for Medicine and Biology in Berlin-Buch 1/ will soon be separated from the Institute and established as an independent academy institute under the direction of its present chief, Dr. Kaethe Dornberger. The development of Dornberger's section into an institute reflects the growing importance which the East German authorities attach to research in the field of crystal structure analysis.
2. The Academy Institute for Crystal Structure Analysis will be set up on the third floor of the Berliner Gluehampenwerk (BGW), which is now occupied by Main Administration RFT. Three more institutes, among them a Physical Institute of Humboldt University, are to move into the third floor of BGW. The project for setting up the future Academy Institute for Crystal Structure analysis and three other scientific institutes on the third floor of BGW is carried in the files of the State Planning Commission as "Projekt Berliner Gluehampenwerk, Dritter Stock".
3. Dornberger, her staff and her equipment are ready to move. The move will be carried out as soon as HV RFT evacuates its offices at BGW.

25X1A 1 [REDACTED] Comment. This department was a section in the Biophysical Department of the Institute until about a year ago, when the section was transformed into a department under the direction of Dr. Kaethe Dornberger.
